

# Language barriers are nothing to speak of

Translation

### The benefits of excellent translation

- Professional communication
- Greater credibility with your customers
- No more language barriers
- Stronger company image

## Translation

Save time and money on outsourcing translation tasks to World Translation A/S. Whatever your target language, whatever the culture, business or organisation the text is aimed at, we help you to communicate effectively and easily. The quality of your communication reflects the professionalism of your company, so we want to help ensure that your customers experience your products in a positive way.

### Excellent translation

Your translations must be of the highest quality so that your customers experience your products in a positive way – they must be easy to understand, accurate and written for their target audience. World Translation's internal quality assurance procedures ensure top quality translations. Your translations are always managed by the same project manager and we only use translators who translate into their native language. In addition, we build up a translation database for your company.

### We adjust to suit your needs

You choose how your translations should be handled and we readily discuss your expectations. To achieve the optimum exchange of knowledge

and an efficient workflow between all of the project managers, we use the latest server-based tools for communication and for processing translation data. These tools help to ensure that all of the involved stakeholders have access to the same updated information, ensuring that important information is never lost. Naturally, as a client you can have the option of easily following this process via our secure client portal. All material and information will be treated as confidential.

### We help you to

- translate to or from any language in the world
- translate specialised subjects
- proofread and make corrections
- create print-ready format as required
- deliver in all formats

### Take the next step with your project

Contact us for a non-committal chat. We look forward to hearing from you.
